

GET YOUR GROOVE ON.

With the widest range of Tongue-and-Groove profiles in the industry, no one gives you more options than VERSATEX. From standard beadboard to T&G sheets, beaded sheets, Stealth Beadboard, and WP4, VERSATEX gives you design flexibility during installations. Beaded sheets are also an excellent way to save installation time on the project and are very useful in a wainscoting application.

VERSATEX OFFERS MORE COVERAGE

Our standard Beadboard profile is a full 5 1/2" wide, creating a surface that provides 7% more coverage than our competitors. It is also the only PVC Beadboard that meets or exceeds UL580, class 90 wind gust uplift resistant, making it ideal for coastal applications.

STEALTH BEADBOARD

Our Stealth Beadboard features an extended leg to provide more reachable surface for nailing, thus speeding up installation without any unwanted damage. It also meets or exceeds UL580 class 90 wind gust uplift resistance.

T&G PROFILES

All VERSATEX T&G profiles are available in traditional 1/2" thickness and 3/4" thickness for those requiring up to 24" O.C. spacing.

Overall Board Width	Length		
Actual Sizes	8'	10'	18'
1/2" X 3 1/2" (Regular)			●
1/2" X 5 1/2" (Regular)			●
3/4" X 5 1/2" (Regular)			●
1/2" X 4" (Stealth)			●
1/2" X 6" (Stealth)			●
1/2" X 48" (Beaded Sheet)	●	●
